Election/Restrictions

Claims 14-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group II, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 11. Although Mr. Stephen A. Bent elected a single Group (Claims 1-13), he failed to elect a species and subspecies, as required in the Office Action mailed on November 5, 2002. Examiner called Foley & Lardner in an attempt to contact Mr. Bent to discuss election of a species and subspecies and was informed by Ms. Kile that she was the new attorney handling this application. After looking over the Restriction Requirement of November 5, 2002, Ms. Kile indicated to Examiner that there was some confusion in the understanding of the species and subspecies. Examiner looked over the specification and re-wrote the species restriction to better help Ms. Kile in the election of a species and subspecies.

This application contains claims directed to the following patentably distinct species of the claimed invention: (A) Figures 1a and 1b (non-reinforced catheter); (B) Figure 4 (reinforced catheter). Upon election of a single species, Applicant needs to elect a single subspecies under each of the following categories of subspecies. **FIXTURE:** (a) Figure 2a; (b) Figure 2c; (c) Figure 5. **ENGAGEMENT:** (aa) threaded; (bb) snap-fit. **CONNECTOR:** (aaa) 1-way valve: Figure 3; (bbb) 4-way valve: Figure 1. **SEALING MEANS:** (aaaa) resilient material such as silicone rubber; (bbbb) a material

that deforms in-elastically, e.g. a soft metal such as brass or aluminum; (cccc) a number of flexibly mounted cutting edges.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and subspecies for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Ms. Michelle Kile in February of 2003, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathryn L Thompson whose telephone number is 703-305-3286. The examiner can normally be reached on 8:30 AM - 6:00 PM: 1st Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Casler can be reached on 703-308-3552.
